## **Department of Pharmacology**

### **About the Department-**

The Department of Pharmacology was established in 2022 under the able guidance of Dr. Niveditha as Head of the Dept. for teaching and training of MBBS students. The Department has well-equipped labs for teaching MBBS students. The faculty members of the department are active in acquiring new knowledge through participation in various conferences at national and international levels. The faculty members work as member secretaries and as members of different academic committees. The main goal of the department is for every medical student to gain holistic knowledge in all the aspects of pharmacology like pharmacokinetics, pharmacodynamics, clinical pharmacology, therapeutics, and adverse drug reactions, and inculcate the rational and scientific basis of therapeutics.

### **Vision:**

1. Develop and equip students with a concrete foundation in basic and clinical pharmacology, toxicology, and therapeutic applications.
2. To become a recognized academic and research Centre in the area of Pharmacology which generates new and useful knowledge to meet the needs of the hospital, society, industry, and research organizations.
3. Provide hospital services that will contribute to improvement in the quality of health care.

**Mission:**

1. The Department of Pharmacology is committed to delivering excellence in the areas of education, research, community engagement, industry, and corporate relations. The education mission is to develop and teach the best in the field and up-to-date curricula of pharmacology and allied subjects up to postgraduate level. The department is also striving to engage with the community especially the vulnerable sections of society as well as with Industry to address the socioeconomic challenges relevant to public health.
2. Acquiring and creating new knowledge in pharmacology and basic sciences related to drugs by participating in research activities.
3. Transmission of knowledge to MBBS students, Junior residents, Senior residents, and other faculty members through teaching in a manner that allows them to develop their analytical and intellectual capabilities.
4. Assuming administrative responsibilities as an expert committee member at local, national, and international levels.
5. Contribution to the progress of society through offering expert advice to, and participating in, government and community organizations or activities related to pharmacology and drugs in general.

**Facilities**

- 1) Departmental library
- 2) Departmental museum
- 3) Pharmacology models
- 4) Clinical pharmacology laboratory
- 5) Computer-assisted learning laboratory

**Name of the Department- MICROBIOLOGY****About the Department:**

The Department of Microbiology was established in the year 2022 and assumed a multifaceted role, serving as the vanguard of scholarly pursuit and experiential learning. Here, it furnishes students with indispensable theoretical insights and hands-on training in the intricate domain of microorganisms, their pathogenic mechanisms and diagnostic methodologies.

In the hospital setting, the Microbiology Department is instrumental in disease diagnosis and management, conducting tests to identify pathogens, determine antibiotic susceptibilities and monitor infectious disease trends. This aids in the timely and accurate treatment of patients. Infection control practices are also reinforced through the surveillance efforts of microbiologists and hospital infection control team who implement preventive measures by identifying outbreaks to curtail transmission.

The arms of this multidisciplinary domain consist of Bacteriology, Virology, Mycology, Serology, Immunology, Parasitology, Mycobacteriology & Hospital Infection Control laboratory. The laboratory is well equipped with advanced molecular aids like RTPCR, CBNAAT & BACTEC which facilitates prompt & timely testing for deadly infections like SARS-CoV-2, tuberculosis along with blood borne infections supplementing the conventional microbiological tools for better delivery of diagnostic services.

The Department of Microbiology has been at the forefront in fighting the COVID-19 pandemic, be it the diagnostic support including RT-PCR and CBNAAT as well as infection control activities. The Department of Microbiology has been NABL (Medical entry level) accredited from March 8, 2024 as per ISO: 128. For keeping the regular quality checks the department has collaboration with Christian Medical College, Vellore & actively participating in External Quality Assessment Scheme for Bacteriology & Serology under the aegis of Indian Association of Medical Microbiologists since 2023.

Overall, the Microbiology Department serves as a cornerstone of medical education, healthcare delivery and public health efforts, embodying a crucial nexus between academia, clinical practice, and societal welfare.

### **Name of the Department- Community Medicine**

#### **About the Department- Community Medicine**

The department carries out its primary objectives of teaching and training of Undergraduate (MBBS) medical students and training of interns in community medicine aiming to develop both a physician of first contact for the community while being globally relevant. Our curriculum, structured and competency based as per the NMC requirements ensures that the undergraduate students acquire the necessary knowledge, attitude, values, and skills to effectively serve the community. Research in the areas of Public Health and Community Health are fundamental aspects of the department.

The Community Health training gives a clear picture of socio-cultural, economic, and other multiple factors associated with health and disease known as social determinants of health. It also encompasses the planning and management of programs focused on disease prevention and health improvement, fostering the holistic development of the community.

#### **Vision**

To be a Centre of excellence in Community Medicine, Epidemiology, and research by providing high quality education, ethical values, and services for the Community with the spirit of scientific enquiry and empathy.

**Mission:**

1. To train and prepare the medical students and interns as community physicians who can provide comprehensive health care to the community.
2. To develop among the medical students a sense of social responsibility and sensibility, through Family Adoption Program.
3. To sensitize and nurture the aptitude for research among the undergraduate medical students and interns.
4. To conduct awareness generation activities on common health problems at UHTC & RHTC, through IEC, health talks, skits, and role-plays.
5. To develop and strengthen a public health laboratory at ESIC with facilities of water chemistry, milk testing & oil testing etc.
